

3/10/88

Birdie: Here are the following documents
as per the BASF FOIA request, number 52-88:

1. the original consent decree and stipulation
for modification;
2. the complaint filed against BASF;
3. BASF's reply to the complaint.

Items 4, 5 + 6 of the FOIA request (rulings
handed down; intervenors in action; EPA
memorandum) do not exist.

Re: Freedom of Information Request
BASF Wyandotte Corp.

Dear Mr. Miner:

This is a Freedom of Information Request for documents pertaining to a 1980 consent decree between EPA and BASF Wyandotte Corporation for a hazardous waste site in Riverview, MI.

According to news articles, the US Department of Justice brought a civil action against BASF for violations of a consent decree in 1987. We have an interest in tracking this case.

We are requesting the following documents:

1. A copy of the original consent decree and any subsequent modifications.
2. A copy of the complaint filed against BASF for violations of the consent decree, along with supporting memorandum and documents.
3. A copy of BASF's reply(s) to the complaint.
4. Ruling(s) handed down by the federal district court judge with respect to the violation of the consent decree.
5. A list of intervenors, if any, involved in this action.
6. Memorandum outlining EPA's investigation, findings, and/or enforcement actions taken with respect to the Riverview site.

Please send all documents to: Richard Miller
OCAW
PO Box 2812
Denver, CO 80201

I understand there may be a charge for copying. Please enclose the invoice, if any, with the shipment of documents.

Thank you for your consideration.
